

Designed for simple queuing applications. Customer collects pre-printed ticket from a wall mounted dispenser; then the call is made from any of the counter mimic keypads so the caller knows which number to expect. The other counter keypads will then synchronize to show the same number on their mimic displays.

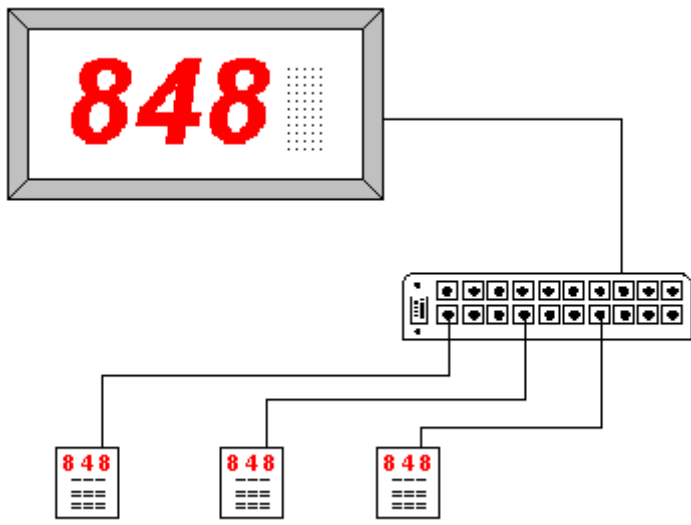

Display features:

- High contrast seven segment LEDs. (white or red)
- Choice of 10 or 18cm high digits
- Black slim line case
- Integral power supply
- Integrated speaker
- Announcement bell
- Adjustable volume control
- Standoff wall brackets
- Optional pre-recorded voice announcement.

Keypad functions:

- LED mimic so that operator knows which number called
- Individual increase of numbers
- Speed increase of numbers
- Individual decrease of numbers
- Speed decrease of numbers
- Reset to number zero
- Switch display to blank
- Synchronises with the other keypads automatically

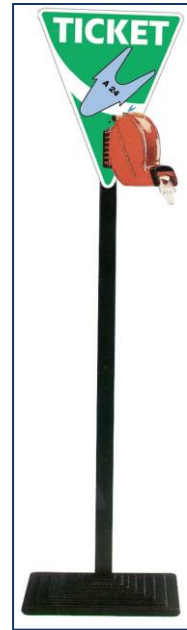

Model No.	Dimensions mm	Digit Height	No. of Digits	LED Colour
JQA 110	300 x 170 x 51	10 cm (4")	2	Red
JQA 120	390 x 170 x 51	10 cm (4")	3	Red
JQA 130	750 x 360 x 75	18 cm (7")	3	Red
JQA 131	750 x 360 x 75	18 cm (7")	3	Yellow
